Dear Jerry:

I agree that this Agency should participate in the patent
advisory council you propose in your letter of 22 November 1963.

I have designated as our representative

Assistant General Counsel, who is responsible for reviewing all
our research and development contracts, including the patent
aspects, and is familiar, therefore, with the subject matter
involved.

FEDERAL COUNCIL FOR SCIENCE AND TECHNOLOGY
EXECUTIVE OFFICE BUILDING
WASHINGTON 25, D.C.

November 22, 1963

Dear John:

At its meeting on November 7, 1963, the Federal Council for Science and Technology acted to establish a patent advisory panel pursuant to the Presidential Statement of Government Patent Policy issued October 10, 1963.

As provided in the Statement, it will be the function of this panel to:

(a) develop by mutual consultation and coordination with the agencies common guidelines for the implementation of this policy, consistent with existing statutes, and to provide over-all guidance as to disposition of inventions and patents in which the government has any right or interest; and

(b) encourage the acquisition of data by government agencies on the disposition of patent rights to inventions resulting from federally-financed research and development and on the use and practice of such inventions, to serve as basis for policy review and development; and

(c) make recommendations for advancing the use and exploitation of government-owned domestic and foreign patents.

I would appreciate an early designation by your agency of a representative to serve on the panel. The complexities of the subject matter involved appear to call for competence in the administration of patents together with an understanding of the process of research, development and industrial innovation.

Sincerely yours,

Jerome B. Wiesner
